

Hi, I'm Erin Simpson. I've lived in Eston since 2003. My husband Jay and I have three sons. Our oldest just started his first year of university and the other two are in grades 11 and 9.

I decided to run for council because to me it is important to give back to my community. Some of the ways I have been involved in the town are as a member Eston 95 Lions, School Community Council, and I've managed various sport teams that my boys have been involved in. I was on town council in 2012 for 2 years since that time I've completed my Local Government Administration Certificate and worked in municipal offices which I feel will help me to be a well-rounded councilor if elected.

As for my priorities, I would like to become familiar with the priorities of the previous council as well as the budget to gain a better understanding of what everything looks like and the background behind it.

Thank you for your consideration.
