

I moved to Eston 15 years ago to work and raise a family. I'm married and have five kids, ages 20 to 5. My occupation is in quality assurance and supply chain management with AGT Foods in grain handling.

While I haven't served on town council before, I've been active in the community through the school community council and the Eston Lions Club. I've volunteered for various initiatives, including event planning, community meals, 4H projects, Meals on Wheels, and recreation upgrades like playground and ice surface renewal.

I'm continually impressed by the range of opportunities in Eston, from sports and youth activities to arts and culture. I believe in maintaining and enhancing these offerings for our families while promoting sustainability for future growth. I'm excited about the potential to contribute to our community and support its ongoing development.

Thank you,

Jamie Hallborg
