

Jason Brewer Biography for the Town of Eston Municipal Council Election

Good day. My name is Jason Brewer and I have put forth my name to run for the position of Town of Eston Council in the upcoming November election. I have lived in Eston all my life and I have farmed for the majority of it. I am married to Sherry, a teacher in Sun West School Division and we have one son Levi who is attending University in Missouri. I was motivated to run for this position as I felt that this was an opportunity for me to do more for my hometown. I look forward to learning more about the role that council members play and creating new relationships with the town employees and town residents. I have been involved in various roles in the community over the past years. I was an elected RM of Snipe Lake Councillor and I sat on different boards such as the Recreation Board and the Airport Committee. I have participated in various sporting teams as a player and as a volunteer. I am a relatively new Legion member and I look forward to assisting in community events with that group. I have also volunteered for projects in Eston and at the Eston Riverside Regional Park. Some of my priorities would be to learn about the inner workings of the town, the decision-making process by council, and continuing with current and future town projects. If elected, I look forward to working with town employees, town residents, and the new council to continue to make Eston a great place to live and work.

Yours truly,

Jason Brewer
