---

I was born and raised in Eston, the youngest of three, and have lived here most of my life. I currently work as a labourer for Oakland Brothers Farms.

I was encouraged to run for council by a couple of friends in the community and view it as an interesting way to contribute to the community as I haven't been involved as much as I once was.

Eston is a great community that needs to continue building and growing. Continued infrastructure upgrades, service improvements, and creating conditions for businesses to grow are my main concerns for the town.

Thank you for your consideration,  
Tim McLeod
